GIN CONNECTS

The Global Incubator Network Austria is the connecting link between Austrian and international startups, investors, incubators and accelerators with a special focus on selected hotspots in Asia.

ABOUT GIN

As a single point of contact, the **Global Incubator Network Austria** – short GIN – offers customized services for Austrian and international startups, investors, incubators and accelerators with a focus on selected hotspots in Asia (Hong Kong, Israel, Japan, Mainland China, Singapore and South Korea).

Initiated by the Austrian Federal Government, GIN is a program managed by the public funding agencies **aws** (Austria Wirtschaftsservice) and **FFG** (Austrian Research Promotion Agency), and financed by the Austrian National Foundation for Research, Technology and Development.

We see the world as **one big marketplace** – a market that grows every day and thus offers **endless opportunities for startups** to find new partners for their individual products and services. We want to be the link between the Austrian startup ecosystem and the world.

We help Austrian startups to go international and Asian startups to expand to Austria by building networks, providing know-how and **connecting markets every day**. We are convinced that both regions can learn from each other and support Austrian and Asian startups to internationalize **for better growth** and even a better partnership across borders.
